## About the Australasian Tree Crops Sourcebook

It is with both pleasure and satisfaction that we present this, the second edition of ATCROS. The first edition, which was published in 1991 and sponsored by the West Australian Nut & Tree Crop Association, met with a very good reception and has clearly justified the faith and support of WANATCA in committing funds to a very worthwhile project, but one without any guarantees of success.

There have been many important events and changes on the Australasian tree crops scene since the first ATCROS appeared. Perhaps the one with the most impact on the present publication has been the formalization and incorporation of ACOTANC Inc, the Australasian Council on Tree and Nut Crops.

ACOTANC grew out of the informal arrangements to present the region-wide Australasian Conferences on Tree and Nut Crops, which uses the same acronym. Starting with the first ACOTANC conference in 1982, in Perth, these were staged by the willing cooperation of existing tree crops groups.

Now many of these groups are coming together in ACOTANC Inc to help production and exchange of information, more continuity between ACOTANC conferences (currently every 3 years), and improve liaison between participants. All participants are themselves organizations of one sort or another, formal and informal. In pursuit of these aims, ACOTANC has sponsored the present edition of ATCROS.

While the contents of *ATCROS 1994-95* are along the same lines as the first edition, there have been a number of changes. The ATCROS Directory Tables (Tables N to Z) have been greatly expanded and enhanced, and almost all entries have been checked with the organizations or people listed. The major species information table (Table B) has been converted into a computer database, the last of the tables to be so treated. While the information within it has been little altered, and minor errors may have crept in during the conversion, this table's existence in computer form means that it can be corrected easily in the future as errors or additions are notified to us.

A new table (Table C) has been added listing Plant Species which are sources of Oils, and minor corrections have been made throughout. Notifications of errors, and suggestions for future improvements or additions, are very welcome at any time.

All users of ATCROS are urged to consider whether organizations with which they may be associated would benefit from participation in ACOTANC. Details of the different participation classes are shown elsewhere in this edition of ATCROS, and a participation class suitable for organizations anywhere in the world is offered. The more participants ACOTANC has, the better the flow of information and advances in the whole area of tree crops.

— *David Noël*

**About ACOTANC Inc****(Australasian Council On Tree And Nut Crops)**

ACOTANC is a coordination and liaison body, for which involvement is open to any type of organization. Organizations may be incorporated or unincorporated, formal or informal, as for example: grower associations, research stations, university departments or laboratories, commercial firms, and agencies of government.

Operation of ACOTANC will be in the hands of individuals who are nominated by constituent organizations. There are 3 classes of organization involvement.

**1) Full Participants.**

Full Participants are organizations who support the Council's aims and wish to have rights of voting and participation in the operation of the Council. Each Participant should at least 50% of its individual members within the ACOTANC Zone.

Each Participant will have equal and full rights to Council privileges and services, such as

the right to apply for grants and services in the staging of conferences or the pursuit of research, the right to be represented in publications produced for the Council, and the right to nominate representatives to sit on the Council or on its Executive Committees.

Individual members of any Full Participant will have full rights to relevant ACOTANC privileges, such as preferential rates at ACOTANC-supported conferences, preferential discounts on ACOTANC-supported publications, and the right to apply for ACOTANC-supported scholarships and fellowships.

## **2) Local Affiliates**

Local Affiliates are organizations within the ACOTANC Zone who are interested in the Council's aims and wish to be kept informed of its activities and of activities generally in the area of tree and nut crops.

Affiliates will receive a copy of all general newsletters produced by ACOTANC during their period of subscription. Affiliates and individual members of Affiliates may also be offered advantages in such matters as attendance at ACOTANC-supported conferences, but at a lower level than those for Participants and members of Full Participants.

Affiliates will have no obligations toward ACOTANC other than the payment of current subscriptions, but will be encouraged to consider upgrading their ACOTANC status to that of full Participant when appropriate.

## **3) Out-Zone Associates**

Out-Zone Associates are organizations outside the ACOTANC Zone who are interested in the Council's aims and wish to be kept informed of its activities and of activities generally in the area of tree and nut crops.

Associates receive a copy of all general newsletters produced by ACOTANC during their period of subscription. Associates and individual members of Associates may also be offered advantages in such matters as attendance at ACOTANC-supported conferences, but at a lower level than those for Participants and members of Full Participants. Associates have no obligations toward ACOTANC other than the payment of current subscriptions.

### **ACOTANC Zone Definition**

The ACOTANC Zone includes Australia, New Zealand, Papua New Guinea, and all countries with at least 10 percent of their territory on islands of the South Pacific or islands off the south, southeast, or east coasts of mainland Asia.

---

## Table A • Common Names of Rarer Fruits & Nuts

Tables A and B have been worked on around the world. They originated as a list from Florida, this was the basis of tables compiled by Ian Wilson and Geoff Parker of the Rare Fruits Council of Australia and published in the RFCA Newsletters in 1989-90. The list was then taken up and amended slightly by the California Rare Fruit Growers and published in their 1989 Yearbook.

All ATCROS tables have now been converted into computer databases by the Tree Crops Centre, so that they can easily be continually updated and improved. Table A, the listing by Common Name, is intended for use in conjunction with, and as a key to, Table B, the Comprehensive Guide organized by Botanical Name.

<i>Common Name</i>	<i>Botanical Name</i>	<i>Common Name</i>	<i>Botanical Name</i>
Abiu	<i>Pouteria caimito</i>	Ceriman	<i>Monstera deliciosa</i>
Acerola	<i>Malpighia glabra</i>	Ceylon gooseberry	<i>Dovyalis hebecarpa</i>
Akee	<i>Blighia sapida</i>	Charichuela	<i>Rhedia macrophylla</i>
Amazon Tree-Grape	<i>Pourouma</i> spp.	Cherimoya	<i>Annona cherimola</i>
Ambarella	<i>Spondias cytherea</i>	Cherry of the Rio Grande	<i>Eugenia aggregata</i>
Apple	<i>Malus pumila</i> ( <i>M. sylvestris</i> )	Chico zapote	<i>Manilkara zapota</i>
Araca	<i>Psidium araca</i>	Chinese gooseberry	<i>Actinidia deliciosa</i> ( <i>A. chinensis</i> )
Atemoya [African Pride]	<i>Annona</i> hybrid	Chinese raisin	<i>Hovenia dulcis</i>
Avocado	<i>Persea americana</i>	Cocoa	<i>Theobroma cacao</i>
Bacupari	<i>Rhedia brasiliensis</i>	Cocona	<i>Solanum topiro</i> ( <i>S. sessiliflorum</i> )
Bael Fruit	<i>Aegle marmelos</i>	Coconut [Dwarf, Malay]	<i>Cocos nucifera</i>
Banana	<i>Musa</i> hybrids	Coconut [Pygmy]	<i>Jubaea spectabilis</i>
Barbados cherry	<i>Malpighia glabra</i>	Coco plum	<i>Chrysobalanus icaco</i>
Barbados gooseberry	<i>Pereskia aculeata</i>	Coffee	<i>Coffea arabica</i>
Bignay	<i>Antidesma bunius</i>	Cotopriz	<i>Talisia oliviformis</i>
Bilimbi	<i>Averrhoa bilimbi</i>	Custard apple	<i>Annona reticulata</i>
Biriba	<i>Rollinia deliciosa</i>	Date	<i>Phoenix dactylifera</i>
Blackberry	<i>Rubus</i> hybrids	Date [Chinese]	<i>Zizyphus jujuba</i>
Black sapote	<i>Diospyros digyna</i> ( <i>D. ebenaster</i> )	Dovyalis [Abyssinian]	<i>Dovyalis abyssinica</i>
Borojo	<i>Borojoa patinoi</i>	Dovyalis [Hybrid]	<i>Dovyalis abyssinica</i> x <i>D. hebecarpa</i>
Breadfruit	<i>Artocarpus altiiis</i>	Downy myrtle	<i>Rhodomyrtus tomentosa</i>
Brush cherry	<i>Eugenia paniculata</i>	Durian	<i>Durio zibethinus</i>
Bullock's heart	<i>Annona reticulata</i>	Egg fruit	<i>Pouteria campechiana</i>
Burdekin plum	<i>Pleiogynium timorense</i> ( <i>P. cerasiferum</i> )	Embic	<i>Phyllanthus emblica</i>
Caimito	<i>Chrysophyllum cainito</i>	Feijoa	<i>Feijoa sellowiana</i>
Calamondin	<i>Citrus madurensis</i> ( <i>Citrofortunella mitis</i> )	Fig	<i>Ficus carica</i>
Calabura	<i>Muntingia</i>	Fijian longan	<i>Pometia pinnata</i>
Camu camu	<i>Myrciaria paraensis</i>	Florida cherry	<i>Eugenia uniflora</i>
Canistel	<i>Pouteria campechiana</i>	Gamboge	<i>Garcinia xanthochymus</i>
Carambola	<i>Averrhoa crambola</i>	Genip	<i>Genipa americana</i>
Capulin [Red, Yellow]	<i>Muntingia</i>	Giant granadilla	<i>Passiflora quadrangularis</i>
Carissa	<i>Carissa grandiflora</i>	Governor's plum	<i>Flacourtia indica</i>
Carob	<i>Ceratonia siliqua</i>	Granadilla	<i>Passiflora</i> spp.
Cas	<i>Psidium friedrichsthalianum</i>	Grape	<i>Vitis</i> spp.
Cashew [Red, Yellow]	<i>Anacardium occidentale</i>	Grapelruit	<i>Citrus paradisi</i>
Cattley guava	<i>Psidium cattleianum</i>	Green sapote	<i>Calocarpum viride</i>
Cecropia	<i>Cecropia peltata</i>	Grosella	<i>Phyllanthus acidus</i>

<i>Common Name</i>	<i>Botanical Name</i>	<i>Common Name</i>	<i>Botanical Name</i>
Grumichama	<i>Eugenia dombeyi</i> ( <i>E. brasiliensis</i> )	Mamey sapote	<i>Calocarpum sapota</i>
Guanabana	<i>Annona muricata</i>	Mamoncillo	<i>Melicocca bijuga</i>
Guava	<i>Psidium guajava</i>	Mandarin	<i>Citrus reticulata</i>
Guava [Cattley]	<i>Psidium cattleianum</i>	Mangaba	<i>Hancornia speciosa</i>
Guava [Pineapple]	<i>Feijoa sellowiana</i>	Mango	<i>Mangifera indica</i>
Guava [Strawberry]	<i>Psidium cattleianum</i>	Mangosteen	<i>Garcinia mangostana</i>
Guava berry	<i>Myrciaria floribunda</i>	Maprang	<i>Bouea macrophylla</i>
Herbert River cherry	<i>Antidesma dallachyanum</i>	Marmalade box	<i>Genipa americana</i>
Ilama [Pink, White]	<i>Annona diversifolia</i>	Matasano	<i>Casimiroa edulis</i>
Imbe	<i>Garcinia livingstonei</i>	Maya breadnut	<i>Brosimum alicastrum</i>
Imbu	<i>Spondias tuberosa</i>	Miracle fruit	<i>Synsepalum dulcificum</i>
Inga	<i>Inga spp.</i>	Mombin [Purple, Red]	<i>Spondias purpurea</i>
Jaboticaba	<i>Myrciaria cauliflora</i>	Mombin [Yellow]	<i>Spondias mombin</i>
Jakfruit	<i>Artocarpus heterophyllus</i>	Monstera	<i>Monstera deliciosa</i>
Jamaica cherry	<i>Muntingia calabura</i>	Mulberry	<i>Morus spp.</i>
Jambolan	<i>Syzygium cumini</i>	Muntingia	<i>Muntingia calabura</i>
Java plum	<i>Syzygium cumini</i>	Myrobalan	<i>Phyllanthus emblica</i>
Jelly Palm	<i>Butia capitata</i>	Mysore raspberry	<i>Rubus abescens</i>
Jujube [Chinese]	<i>Zizyphus jujuba</i>	Nance	<i>Byrsonima crassifolia</i>
Jujube [Indian]	<i>Zizyphus mauritiana</i>	Namnam	<i>Cynometra cauliflora</i>
Jujube [Malay]	<i>Zizyphus mauritiana</i>	Naranjilla	<i>Solanum quitoense</i>
Kaffir plum	<i>Harpephyllum caffrum</i>	Nauclera	<i>Nauclera esculenta</i>
Karanda	<i>Carissa carandas</i>	Natal Plum	<i>Carissa grandiflora</i>
Kei apple	<i>Dovyalis caffra</i>	Nispero	<i>Manilkara zapota</i>
King Orange	<i>Citrus nobilis</i>	Olive	<i>Olea europaea</i>
Kitebilla	<i>Dovyalis hebecarpa</i>	Olosapo	<i>Couepia polyandra</i>
Kiwi	<i>Actinidia chinensis</i>	Otaheite apple	<i>Spondias cytherea</i>
Kumquat [Oval/nagami]	<i>Fortunella margarita</i>	Otaheite gooseberry	<i>Phyllanthus acidus</i>
Kumquatt [Round/marumi]	<i>Fortunella japonica</i>	Panama berry	<i>Muntingia calabura</i>
Kumquat [Sweet /meiwa]	<i>Fortunella crassifolia</i>	Paniala	<i>Flacourtia cataphracta</i>
Kuwini	<i>Mangifera odorata</i>	Papaya	<i>Carica papaya</i>
Kwaimuk	<i>Artocarpus hypargyreus</i>	Passion fruit [Purple]	<i>Passiflora edulis</i>
Langsat	<i>Lansium domesticum</i>	Passion fruit [Yellow]	<i>Passiflora edulis f. flavicarpa</i>
Lemon	<i>Citrus limon</i>	Peach	<i>Prunus persica</i>
Lime [Key, Mexican, W. Indian]	<i>Citrus aurantifolia</i>	Peach palm	<i>Bactris gasipaes</i>
Lime [Tahiti, Persian]	<i>Citrus latifolia</i>	Pejbaye	<i>Bactris gasipaes</i>
Limeberry	<i>Triphasia trifolia</i>	Persimmon	<i>Diospyros virginiana</i>
Lingaro	<i>Eleagnus philippensis</i>	[Seedless, American]	
Loquat	<i>Eriobotrya japonica</i>	Persimmon	<i>Diospyros kaki</i>
Longan	<i>Euphoria longana</i>	[Oriental, Fuyu]	
Lovi-lovi	<i>Flacourtia inermis</i>	Pickle fruit	<i>Averrhoa bilimbi</i>
Lucmo	<i>Pouteria obovata</i>	Pineapple	<i>Ananas comosus</i>
Lychee	<i>Litchi chinensis</i>	Pitanga	<i>Eugenia uniflora</i>
Mabolo	<i>Diospyros blancoi</i> ( <i>D. discolor</i> )	Pitaya	<i>Cereus spp.</i> ( <i>Hylocereus spp.</i> )
Macadamia nut	<i>Macadamia integrifolia</i>	Pitomba	<i>Eugenia luschnathiana</i>
Macadamia nut		Plantain	<i>Musa hybrids</i>
[Rough shell]	<i>Macadamia tetraphylla</i>	Pomegranate	<i>Punica granatum</i>
Madruno	<i>Rheedia madruno</i>	Pomelo	<i>Citrus grandis</i>
Malay apple	<i>Syzygium malaccense</i>	Pond apple	<i>Annona glabra</i>
Mamey apple	<i>Mammea americana</i>	Prickly pear	<i>Opuntia ficus-indica</i>
Mamey colorado	<i>Calocarpum sapota</i> ( <i>Pouteria sapota</i> )	Pulasan	<i>Nephelium mutabile</i>
		Pummelo	<i>Citrus grandis</i>
		Queensland nut	<i>Macadamia integrifolia</i>
		Rambai	<i>Baccaurea dulcis</i>

<i>Common Name</i>	<i>Botanical Name</i>	<i>Common Name</i>	<i>Botanical Name</i>
Rambutan	<i>Nephelium lappaceum</i>	Spanish lime	<i>Melicocca bijiga</i>
Ramontchi	<i>Flacourtia ramontchi</i>	Star apple	<i>Chrysophyllum cainito</i>
Raspberry	<i>Rubus spp.</i>	Star Fruit	<i>Averrhoa carambola</i>
Raspberry [Mysore]	<i>Rubus abescens</i>	Sugar apple	<i>Annona squamosa</i>
Roseapple	<i>Syzygium jambos</i>	Sunsapote	<i>Licania platypus</i>
Roselle	<i>Hibiscus sabdariffa</i>	Surinam cherry	<i>Eugenia uniflora</i>
Rukam	<i>Flacourtia rukam</i>	Sweet orange	<i>Citrus sinensis</i>
Saint John's Bread	<i>Ceratonia siliqua</i>	Sweetsop	<i>Annona squamosa</i>
Salak palm	<i>Salacca edulis</i>	Tamarind	<i>Tamarindus indica</i>
Santol	<i>Sandoricum koetjape</i>	Tangelo	<i>Citrus reticulata</i> x <i>C. grandis</i>
Sapodilla	<i>Manilkara zapota</i>	Tangerine	<i>Citrus reticulata</i>

## J1 • NITROGEN REQUIREMENTS OF FRUIT AND NUT TREES

(California Rare Fruit Growers Yearbook 1989)

Crop	Sufficient Growth (inch/yr)	Pounds Nitrogen Needed for sufficient growth			Poultry manure (pounds)	Cow manure (pounds)
		A	B	C		
	(1)	(2)	(3)	(4)	(5)	(6)
Almond	8 to 12	2	—	2.5	90	180
Apple	6 to 10	1	.6	1	40	90
Apricot	10	1.5	—	1.28	45	90
Avocado	2 to 4	1.5	—	1.05	30	100
Cherry	6 to 12	1	.1	.8	30	70
Citrus	4 to 6	4	—	1.5	40	100
Fig	6	—	—	.4	25	70
Grape	24 to 48	—	—	.21	5	15
Peach/nectarine	6 to 12	2	.8	1 12	40	80
Pear	12 to 18	.5	.3	.96	40	80
Plum/prune	10 to 16	1	.3	8	30	70
Walnut	12 to 16	10	-	2.4	80	15

Rates are for standard-size trees and vines. For trees less than 5 years old, use 0.25-0.5 of these amounts; give dwarf trees an amount proportional to their size. Poultry and cow manure rates are for column C only. Conversion: multiply inches by 2.5 to give cm. Divide pounds by 2.2 to give kg.

A—from Western Fruit Gardening; B - from Fertilizers and Crop Production; C - from University of California Cooperative Extension

**Table E • Main Tree Fruit & Vine Crops, WA:****Characteristics and Requirements***Neville Shorter, WANATCA***\*Key to Table E (cols 5,6)**

B	Beneficial	M&B Monosexual and Bisexual varieties available
E	Essential	M&F Separate Male and Female plants required
H	High	N/A Not Applicable
H/P	Hand Pollination helpful	N/N Not Needed
L	Low	Ny/N/N Normally Not Needed
M	Medium	T/H To Height of trellis

**Notes**

- These recommendations are based on regular irrigation and a well-balanced and liberal level of nutrition
- Planting distances can be considerably modified if trees are planted on hedgerow system
- Tree height can be controlled within these limits by close attention to summer pruning

## E • Main Tree Fruit & Vine Crops, W A:

Fruit Type	Bearing (1)yrs	Maturity (2)yrs	Height (3)m	Spacing (4)m	Chilling (5)*p31	Cross (6)*p31	
Almond	3-5	10-15	4-5	6 x 4	L	E	
Apple	3-5	10-15	3-4	6 x 4	M	B	
Apricot	3-5	10-15	4-5	6 x 6	L - M	Ny/N/N

## Table G • GLOSSARY OF NUT NAMES

David Noel, WANATCA

Tables G and H are derived from a database of common and botanical names of nuts. The database also includes a 5-letter code for each species.

In Table G, which is alphabetical by Common Name, the same common name may be in use for several species. For example, the name 'Java almond' has been used for several species of *Canarium*, and also for at least one from the genus *Terminalia*.

Common names given in brackets, e.g. [kuran], are vernacular names, used by people speaking languages other than English. In some cases there is no English common name, in others the native name comes to be used in English (often altered, e.g. pinyon pine nut, from the Spanish name *piñon*).

Table H is in alphabetical order by Botanical Name. It shows the 5-letter species code, the botanical name, and any common names which are assigned to the species. Also included, as well as the preferred botanical name, are a number of alternative or superseded botanical names. For these, the 5-letter code given is that of the preferred name followed by an equals sign (e.g. **brast=amygdalus aethiopica**). In this example, the Van Riebeeck almond, *Brabejum stellatifolium*, was

previously wrongly assigned to the almond family, and so had the genus name *Amygdalus*. The code can be used to look up the current botanical name.

The 5-letter code is normally made up of the first three letters of the genus name plus the first two letters of the species name, so *Cocos nucifera*, the coconut, becomes **cocnu**. However, where this system would result in two different species having the same code, letters from later in the genus or species name have been used to give every species a different code. Thus the true chestnuts have codes starting with **cas** (for *Castanea*), while the evergreen chestnuts, *Castanopsis*, have codes beginning **cat**.

In Table H, the preferred common name is that given first. Older common or botanical names are still useful because older literature will use these names and be indexed under them.

The attempt has been made to include any species which have any pretension at all of being classed as 'nuts', and a number of related species which do not produce nuts. For example, the Apricot is included (because the kernel of the apricot stone is used in some places as a nut), and a number of *Pistacia* species are included because they are used as rootstocks for the Pistachio Nut.

Common Name	Botanical Name	Common Name	Botanical Name
abiu	<i>pouteria caimito</i>	arizona walnut	<i>juglans major</i>
acorns	<i>quercus</i> species	assyrian plum	<i>cordia myxa</i>
african brazil nut	<i>poga oleosa</i>	atta bean	<i>pentaclethra macrophylla</i>
african breadfruit	<i>treculia africana</i>	australian cashew	<i>semecarpus australiensis</i>
african locust bean	<i>parkia filicoidea</i>	australian chestnut	<i>castanospermum australe</i>
african oil palm	<i>elaeis guineensis</i>	ava almond	<i>canarium</i> species
african pearwood	<i>mimusops djave</i>	avellano	<i>gevuina avellana</i>

sea almond	quercus undulata	sweet chestnut	castanea sativa
sea coconut	terminalia catappa	sweet melon	cucumis melo
sea fruit	lodoicea sechellarum	swiss stone pine	pinus cembra
sea fruit	enhalus acoroides	sword bean	canavalia ensiformis
seaside pea	enhalus koenigiia	sydney golden wattle	acacia longifolia
sedge nut	lathyrus maritimus	tacky nut	caryodendron orinocense
seje	cyperus esculentes	tagua nut	phytelephas macrocarpa
seminole bread	jessenia polycarpa	tahiti chestnut	inocarpus edulis
serpent cucumber	zamia floridiana	talipot palm	corypha umbraculifera
sesame	trichosanthes anguina	tallow nut	sapium sabiniferum
shagbark hickory	sesamum indicum	tallow nute	ximenia americana
shea butter tree	carya ovata	tallow tree	allanblackia floribunda
shea butter tree	butyrospermum paradoxum	tallow tree	detarium senegalense
shea nut	butyrospermum parkii	tallow tree	pentadesma butyracea
shellbark hickory	butyrospermum parkii	tamarind	tarandus indica
shin oak	carya laciniosa	tapos	elateriospermum tapos
siberian hazel	quercus gambelii	tar tree	semecarpus australiensis
siberian stone pine	corylus heterophylla	terap	artocapus elastica
sierra leone gourd	pinus sibirica	texas walnut	juglans rupestris
silk cotton tree	colocynthis vulgaris	thorn tree	balanites aegyptiaca
sim sim	ceiba pentandra	tibet hazel	corylus tibetica
singhara nut	sesamum indicum	tiger nut	cyperus esculentes
single-leaf pine	trapa bispinosa	tingui	magonia pubescens
skittle nut	pinus monophylla	tola	beilschmiedia mannii
	allantoma cylindrica	tonka bean	coumarouna odorata

<i>Common Name</i>	<i>Botanical Name</i>	<i>Common Name</i>	<i>Botanical Name</i>
torrey pine	pinus torreyana	yellow breadnut	trohis racemosa
travellers tree	ravenala madagascariensis	yellow iris	iris pseudacorus
tree-of-life	mauritia flexuosa	yellow lupine	lupinus luteus
tropical chestnuts	castanopsis species	yellow pond lily	nuphar advena
tropical chestnuts	sterculia species	yellow spanish plum	spondias monbin
tropical horse chestnuts	bilialia species	yellow walnut	beilschmiedia bancroftii
tropical oaks	lithocarpus species	zambesi almond	ricinodendron heudlotii
tucan nut	astrocaryum tucumoides	zamia palm	macrozamia reidlei
tucum nut	astrocaryum tucumoides	zulu nut	cyperus esculentes
tung	aleurites fordii	[an-ji-ur]	sterculia ramiflora
tung	aleurites montana	[arumba]	lepidozamia hopei
turkey oak	quercus cerris	[baiyo]	macrozamia reidlei
turkish hazel	corylus columna	[bijasa]	pterocarpus marsupium
two-needle nut pine	pinus edulis	[bodamier]	terminalia catappa
ulumbu tree	sterculia rogersii	[calumpang]	buchanania lanzan
umbrella pine	pinus pinea	[dendezeiro]	elaeis guineensis
valley oak	quercus lobata	[doleib]	borassus debel
valonia oak	quercus aegilops	[egusi]	colocynthis vulgaris
van nebeack almond	brabejum stellatifolium	[tao]	ochrosia oppositifolia
vanquisher	cola microcarpa	[laveleira]	jatropha acanthophylla
vegetable ivory nut	phytelephas macrocarpa	[gajus]	anacardium occidentale
vegetable ivory palm	hyphaene thebaica	[gon]	castanopsis argyrophylla
viper gourd	trichosanthes anguina	[gorarbar]	sterculia quadrifida
virginia chestnut	castanea pumila	[guaniroba]	cocos oleracea
walnut	juglans regia	[gulu]	sterculia urens
walnut bean	endiandra species	[ingi notto]	caryocar nuciferum
walnuts	juglans species	[ivi]	inocarpus edulis
wanga	beilschmiedia bancroftii	[kat]	castanopsis tribuloides
water callrops	trapa natans	[kepayang]	pangium edule
water chestnut	eleocharis dulcis	[kila pimentel]	buchholzia coriacea
water chestnut	trapa bicornis	[kuo sung]	kius amandi
water chestnut	trapa natans	[kursan]	boscia angustifolia
water chinquapin	nelumbo speciosa	[kweme]	telfairea pedata
water hickory	carya aquatica	[kysin]	castanopsis tribuloides
water maize	victoria regia	[ling]	trapa bicornis
water melon	citrullus lanatus	[m poga]	poga oleosa
water melon	citrullus vulgaris	[mkonga]	balanites wilsoniana
water nut	nelumbo speciosa	[mongo]	pandanus utilis
water nut	zostera marina	[muru-muru]	astrocaryum tucumoides
watercare	eschweilera subglandulosa	[nangka]	artocarpus integra
waterlily seeds	nymphaea species	[nara]	acanthosicyos horrida
wax gourd	benincasa hispida	[ngoli]	canarium indicum
wax palm	copernicia prunifera	[nkula]	coula edulis
western oak	quercus garryana	[okwa]	treculia africana
white breadnut	trohis racemosa	[pakoidan]	ochrosia elliptica
white hickory	carya tomentosa	[pheng phok]	sterculia monosperma
white nut	ginkgo biloba	[pignolia]	pinus pinea
white oak	quercus alba	[po-yoak]	atrolcania
white walnut	juglans cinerea	[pururima]	syagnus cocoides
whitebark pine	pinus albicaulis	[rengas]	gluta elegans
wild almond	brabejum stellatifolium	[rengas]	gluta renghas
wild bean	apios tuberosa	[rengas]	gluta velutina
wild lupine	lupinus perennis	[tuk]	borassus debel
wild mango	cola natalensis	[yalu]	terminalia grandiflora
wild mango	irvingia gabonensis		
wild olive	ximenea americana		
wild plum	pappea capensis		
willow oak	quercus phellos		
winged walnut	pterocarya fraxinifolia		
witch hazel	hamamelis virginiana		
woodland onion	scorodocarpus borneensis		
yeheb nut	cordeauxia edulis		

## H • Botanical Names of Nuts

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
abrpr	<i>abrus precatorius</i>	love nut;rosary pea
acaff	<i>acacia flexicaulis</i>	
acalo	<i>acacia longifolia</i>	sydney golden wattle
acaho	<i>acanthosicyos horrida</i>	butter pit:[nara]
acana	<i>acanthosicyos naudinianus</i>	
acavu	<i>acanthosicyos vulgaris</i>	
acrac	<i>acrocomia aculeata</i>	gru-gru palm
acrm	<i>acrocomia media</i>	
acrme	<i>acrocomia mexicana</i>	mexican gru-gru;suppa palm
acrsc	<i>acrocomia sclerocarpa</i>	gru gru nut
acrto	<i>acrocomia totai</i>	
actca	<i>actinorhysis calapparia</i>	
adadi	<i>adansonia digitata</i>	baobab;sour gourd;monkey bread
adagr	<i>adansonia gregorii</i>	
adeab	<i>adenanthera abrosperma</i>	
adepa	<i>adenanthera pavonina</i>	barbados pride;coral tree:red sanderswood
aescl	<i>aesculus californica</i>	california buckeye;california horse-chestnut
aesca	<i>aesculus carnea</i>	red horse-chestnut
aesch	<i>aesculus chinensis</i>	chinese horse-chestnut
aeshi	<i>aesculus hippocastanum</i>	horse-chestnut;conker
aesin	<i>aesculus indica</i>	indian horse-chestnut
aeslu	<i>aesculus lutea</i>	
aesoc	<i>aesculus octandra</i>	sweet buckeye
aespr	<i>aesculus parviflora</i>	buckeye
aespa	<i>aesculus pavia</i>	red buckeye
aestu	<i>aesculus turbinata</i>	japanese horse-chestnut
afpra	<i>afraegle paniculata</i>	
afrrx	<i>afrolicania</i>	[po-yoak]
afzal	<i>afzelia africana</i>	
agaur	<i>agastache urticifolia</i>	giant hyssop;horsemint
agrgr	<i>agriophyllum gobicum</i>	
aipac	<i>aiphanes acanthophylla</i>	
aipco	<i>aiphanes corallina</i>	
aipmi	<i>aiphanes minima</i>	coyor
alema	<i>alectryon macrococcus</i>	mahoe
aleco	<i>aleurites cordata</i>	japan wood oil
alefo	<i>aleurites fordii</i>	tung
aletr=	<i>aleurites moluccana</i>	
alemo	<i>aleurites montana</i>	tung
aletr	<i>aleurites triloba</i>	candle nut
alets	<i>aleurites trisperma</i>	soft lumbang
alffx	<i>alfaroa species</i>	
allfl	<i>allanblackia floribunda</i>	tallow tree
alicy	<i>allantoma cylindrica</i>	skittle nut
amban	<i>amblygonocarpus andongensis</i>	
ampmo	<i>amphicarpea monoica</i>	hog peanut
brast=	<i>amygdalus aethiopica</i>	
amyna=	<i>amygdalus campestris</i>	
amyna=	<i>amygdalus chinensis</i>	
amyna	<i>amygdalus nana</i>	dwarf almond;steppe almond
amyna=	<i>amygdalus pallasiana</i>	

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
amype	amygdalus pedunculata	cherry almond
anaoc	anacardium occidentale	cashew nut;[gajus]
anahe	anacolosia heptandra	
analu	anacolosia luzoniensis	galo nut
inoed=	anilotum fagiferum	
anipa	anisosperma passiflora	jobota chestnut
antmi	antrocaryon micraster	
apitu	apios tuberosa	groundnut;wild bean
aquma	aquilaria malaccensis	aloes wood
arahy	arachis hypogaea	peanut;groundnut;goober;monkey nut
aralr	aralia trifolia	groundnut
arabr=	araucaria angustifolia	
araar	araucaria araucana	monkey puzzle;chile pine
arabi	araucaria bidwillii	bunya pine
arabr	araucaria brasiliana	parana pine
araxx	araucaria species	
areca	areca catechu	betel nut;areca nut
areco	areca concinna	
aregl	areca glandiformis	
areip	areca ipot	
arema	areca macrocalyx	
arena	areca nagensis	
arepu	areca pumilis	
aretr	areca triandra	
areva	areca valiso	
areuu	arecaceae family	areca palms
areen	arenga engleri	
arepi	arenga pinnata	kaong;sugar plum
areun	arenga undularifolia	
argsi	argania sideroxyylon	argan tree
artel	artocarpus elastica	terap
artal	artocarpus atilis	breadnut
artch	artocarpus champeden	
artal=	artocarpus communis	
artgo	artocarpus gomeziana	
artin=	artocarpus heterophyllus	
artic	artocarpus incisa	breadfruit
artin	artocarpus integra	jak nut;jack nut;[nangka]
artod	artocarpus odoratissima	
artri	artocarpus rigida	monkey jak
artxx	artocarpus species	breadfruit
astac	astrocaryum aculeatum	
astma	astrocaryum malybo	
astme	astrocaryum mexicana	
astca	astrocaryum standleyanum	
asttu	astrocaryum tucumoides	tucum nuts;tucan nuts;awara nuts;[muru-muru];guere palm
attco	attalea cohune	cohune nut
attfa	attalea fagifolia	
attfu	attalea funifera	coquilla nut
attol	attalea oleifera	
attsp	attalea speciosa	
aviof	avicennia officinalis	new zealand mangrove
bacga	bactris gasipaes	peach palm;pupunha;pejibaye
bacma	bactris major	
balae	balanites aegyptiaca	soapberry tree;thorn tree;desert date

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
balwi=	balanites maughmii	
balpe	balanites pedicellaris	
balwi	balanites wilsoniana	[mkonga]
balsa	balsamorhiza sagittata	oregon sunflower
barbu	barringtonia butonica	
barca	barringtonia careya	
bared	barringtonia edulis	cut nut
barex	barringtonia excelsa	
barma	barringtonia magnifica	
burni	barringtonia niedenzuana	cut nut
burno	barringtonia novae-hyberniae	cut nut
barre	barringtonia reticulata	
barsc	barringtonia scortechinii	
barxx	barringtonia species	
madla=	bassia latifolia	
tyles=	bauhinia esculenta	
plth=	bauhinia thonningii	
bauto	bauhinia tomentosa	st. thomas tree
beiba	beilschmiedia bancroftii	yellow walnut,wanga
beima	beilschmiedia mannii	tola;spicy cedar
benhi	benincasa hispida	wax gourd
berex	bertholletia excelsa	brazil nut;para nut;cream nut
bilxx	billia species	tropical horse chestnuts
bixor	bixa orellana	annatto;lipstick tree
blein	blepharocarya involucragea	rose butternut
blisa	blighia sapida	akee
borxx	borassodendron	
borae	borassus aethiopicum	
borde	borassus deleb	[doleib];[tuk]
borfl	borassus flabellifer	palmyra palm
bosan	boscia angustifolia	[kursan]
bosse	boscia senegalensis	
bossr	boscia serrata	indian olibanum
bosag	bosqueia angolensis	
brast=	brabeium stellatifolium	
brast	brabejum stellatifolium	van riebeeck almond;hottentot almond;wild almond
braut	brachystegia utilis	
braap	brachystegia appendiculata	
brabo	brachystegia boehmii	
brasp	brachystegia spiciformis	
brawa	brachystegia wangermeeana	
broal	brosimum alicastrum	jamaican bread nut;snakewood
brucy	bruguiera cylindrica	
brupa	bruguiera parviflora	
bruse	bruguiera sexangula	
bucia	buchanania lanzan	almondette;cuddapah almond;[calumpang]
bucco	buchholzia coriacea	musk tree;elephant kola;[kila pimente]
conma=	bunium flexuosum	
butpa	butyrospermum paradoxum	shea butter tree
butpk	butyrospermum parkii	shea nut;shea butter tree
simca=	buxus chinensis	
caecr	caesalpinia crista	bonduc nut;nicker nut
cajca	cajanus cajan	pigeon pea
calco	calatola costaricensis	
calla	calatola laevigata	palo de papa

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
calca	calodendrum capense	cape chestnut
calin	calophyllum inophyllum	india-oil nut
calbr	calpocalyx brevibracteatus	
calma	calumus maneu	rattan
calro	calumus rotang	
caltu	calumus tumidus	rattan
canal	canarium album	chinese olive
canam	canarium amboinense	
canau	canarium australianum	
canco	canarium commune	java almond
canin	canarium indicum	kenari nut;java almond;[ngoli]
canke	canarium kepalla	
canlu	canarium luzonicum	pili nut;java almond
canme	canarium mehenbethene	garlip
canmu	canarium muelleri	
cannu	canarium nungi	
canol	canarium oleosum	
canov	canarium ovatum	pili nut
canpi	canarium pimela	chinese olive
canru	canarium rufum	
cansa	canarium salomonense	
cansc	canarium schweinfurthii	incense tree;bush candle tree
canxx	canarium species	pili nut;java almond
canst	canarium strictum	
canvu	canarium vulgare	java almond
canze	canarium zeylanicum	
caeen	canavalia ensiformis	horse bean;sword bean
cabsa	cannabis sativa	hemp;marijuana
caagr	carapa grandiflora	
caapr	carapa procera	
caaxx	carapa species	
carar	careya arborea	patana oak
cahti	carthamus tinctorius	safflower
caral	carya alba	
caraq	carya aquatica	water hickory;swamp hickory
carca	carya cathayensis	chinese butternut;chinese walnut;mountain walnut
carco	carya cordiformis	bitternut
cargl	carya glabra	pignut;redheart hickory
carii	carya illinoensis	pecan
carla	carya laciniosa	shellbark hickory;kingnut
carmi	carya microcarpa	small-fruited hickory
carmy	carya myristicaeformis	nutmeg hickory
carol	carya ovalis	loose-bark pignut
carov	carya ovata	shagbark hickory
carpa	carya pallida	sand hickory
caril=	carya pecan	
carxx	carya species	hickories
carte	carya texana	black hickory
carto	carya tomentosa	mockernut;white hickory;bullnut
cartn	carya tonkinensis	may-chau tree
carvi	carya villosa	pale-leaf hickory
caoam	caryocar amygdaliferum	
caoay	caryocar amygdaliforme	
caobr	caryocar brasiliensis	
caobu	caryocar butyrosium	

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
caoco	caryocar coccineum	
caocr	caryocar coriaceum	
caogl	caryocar glabrum	
caonu	caryocar nuciferum	swarri nut;butter nut;souari nut;[jingu notto]
caoxx	caryocar species	
caolo	caryocar tomentosum	
caovi	caryocar villosum	pekea nut
caror	caryodendron orinocense	taccy nut
caaae	caryota aequatorialis	
caami	caryota milis	fishtail palm
cailo	cassia tora	stinking cassia
cascr	castanea crenata	japanese chestnut
casde	castanea dentata	american chestnut
cashe	castanea henryi	
casmo	castanea mollissima	chinese chestnut
caspu	castanea pumila	chinquapin;virginia chestnut
cassa	castanea sativa	european chestnut;sweet chestnut;spanish chestnut
casxx	castanea species	chestnuts
catac	castanopsis acuminatissima	
catar	castanopsis argentea	
catag	castanopsis argyrophilia	[gon]
catci	castanopsis chinensis	chinese chinquapin
catch	castanopsis chrysophylla	giant chinquapin;golden chestnut
catco	castanopsis costata	
catly	castanopsis hystrix	
catin	castanopsis indica	
catim	castanopsis inermis	braided chestnut
catja	castanopsis javanica	
catla	castanopsis lamontii	
catma	castanopsis malaccensis	
catme	castanopsis megacarpa	
catph	castanopsis philippensis	philippine chestnut
catru	castanopsis rufescens	
catse	castanopsis sempervirens	bush chinquapin
catxx	castanopsis species	tropical chestnuts;chinquapins
cattr	castanopsis tribuloides	[kat];[kysin]
cattu	castanopsis tungurru	
catwa	castanopsis wallichii	
camau	castanospermum australe	moreton bay chestnut;black bean;australian chestnut
cahal	cathormium altissimum	spirit's marbles
ceipe	ceiba pentandra	silk cotton tree
chama	champereira malayana	
chric	chrysoalanus icaco	cocoplum;icaco
chyex	chydenanthus excelsus	
cicar	cicer arietinum	chick pea;egyptian pea
cilla	citrullus lanatus	water melon
citvu	citrullus vulgaris	water melon
cnioi	cnidoscolus oligandrus	
cocco	cocos coronata	nicuri palm nut
cocnu	cocos nucifera	coconut
cocol	cocos oleracea	[guariroba]
cocuu	cocosoid family	cocos palm family
coeam	coelococus amicarum	ivory nut
colni=	cola acuminata	
colca	cola caricifolia	monkey kola

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
coldi	<i>cola digitata</i>	kola nut
colhe	<i>cola heterophylla</i>	
colmc	<i>cola microcarpa</i>	vanquisher
colmi	<i>cola millenii</i>	
colna	<i>cola natalensis</i>	natal cola; wild mango
colni	<i>cola nitida</i>	kola nut; cola nut
stequ=	<i>cola quinqueloba</i>	
colxx	<i>cola species</i>	
colve	<i>cola vera</i>	kola nut
colvr	<i>cola verticillata</i>	slippery kola
colvu	<i>colocynthis vulgaris</i>	bitter gourd; sierra leone gourd; [egusi]
colmo	<i>colophospermum mopane</i>	mopane
conma	<i>conopodium majus</i>	pig nut; earth nut; kipper nut
copba	<i>copaifera baumiana</i>	
coppr	<i>copernicia prunifera</i>	wax palm; carnauba
cored	<i>cordeauxia edulis</i>	yeheb nut
coddi	<i>cordia dichotoma</i>	
codmy	<i>cordia myxa</i>	sapistan plum; assyrian plum
codse	<i>cordia sebestena</i>	geiger tree
codxx	<i>cordia species</i>	
codsu	<i>cordia subcordata</i>	kerosene wood
elaol=	<i>cordozo oleifera</i>	
coraf	<i>cordyla africana</i>	bush mango
coram	<i>corylus americana</i>	american hazel
corav	<i>corylus avellana</i>	hazel nut; filbert; cob nut
corch	<i>corylus chinensis</i>	chinese hazel
corco	<i>corylus colurna</i>	turkish hazel
corcn	<i>corylus cornuta</i>	beaked hazel
corfe	<i>corylus ferox</i>	himalayan hazel
corhe	<i>corylus heterophylla</i>	siberian hazel; japanese hazel
cornn	<i>corylus mandschurica</i>	manchurian hazel; japanese hazel
corma	<i>corylus maxima</i>	hazel nut
corro	<i>corylus rostrata</i>	beaked hazel
corti	<i>corylus tibetica</i>	tibet hazel
corla	<i>corynocarpus laevigatus</i>	karaka nut
corum	<i>corypha umbraculifera</i>	talipot palm
coued	<i>coula edulis</i>	african walnut; gaboon nut; [nkula]
couod	<i>coumarouna odorata</i>	tonka bean
crare	<i>crateva religiosa</i>	
creal	<i>crecentia alata</i>	mexican calabash
crecu	<i>crecentia cujete</i>	calabash
crope	<i>crossonephelis penangensis</i>	
cropr	<i>crossonephelis pervillei</i>	
crola	<i>crossostemma laurifolium</i>	
cryla	<i>cryptocarya latifolia</i>	
crymo	<i>cryptocarya moschata</i>	brazilian nutmeg
crype	<i>cryptocarya peumus</i>	
cryxx	<i>cryptocarya species</i>	
cubbl	<i>cubilia blancoi</i>	kubili nut
cucme	<i>cucumis melo</i>	sweet melon
cucto	<i>cucurbita foetidissima</i>	buffalo gourd
cucpe	<i>cucurbita pepo</i>	squash; pumpkin; gourd
cueka	<i>cuervea kappleriana</i>	karoshiri
cupam	<i>cupania americana</i>	
cycci	<i>cycas circinalis</i>	

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
cycme	<i>cycas media</i>	
cycr	<i>cycas revoluta</i>	sago palm
cycru	<i>cycas rumphii</i>	
cycxx	<i>cycas species</i>	cycads
cycth	<i>cycas thouarsii</i>	
cypes	<i>cyperus esculentes</i>	tiger nut;earth almond;chufa nut;rush nut;sedge nut;zulu nut
doiqr	<i>deinbollia grandifolia</i>	
doiqe	<i>detarium senegalense</i>	tallow tree
doiqn	<i>dialium engleranum</i>	
dimmo	<i>dimorphandra mora</i>	
doiqd	<i>dioon edule</i>	
dippa	<i>diplodiscus paniculatus</i>	baroba;calobo
dolla	<i>dolichos lablab</i>	hyacinth bean
drama	<i>dracontomelum mangiferum</i>	belgian walnut
durzi	<i>durio zibethinus</i>	durian;civet fruit
olagu	<i>elaeis guineensis</i>	oil palm nut;african oil palm;[dendezeiro]
olaol	<i>elaeis oleifera</i>	american oil palm
olaba	<i>elaecarpus bancroftii</i>	johnstone river almond;karanda nut
olach	<i>elaecarpus chelonimorphus</i>	
olaga	<i>elaecarpus ganitrus</i>	olive nut
olaxx	<i>elaecarpus species</i>	
olata	<i>elateriospermum tapos</i>	tapos
oledu	<i>eleocharis dulcis</i>	chinese water chestnut;water chestnut
oledu=	<i>eleocharis tuberosa</i>	
oncba	<i>encephalartos barteri</i>	
onchi	<i>encephalartos hildebrandtii</i>	
ondin	<i>endiandra indignis</i>	boomban
ondpa	<i>endiandra palmerstonii</i>	queensland chestnut
ondxx	<i>endiandra species</i>	walnut bean
ongxx	<i>engelhardtia species</i>	
enhac	<i>enhalus acoroides</i>	sea fruit
enhko	<i>enhalus koenigiia</i>	sea fruit
entsc	<i>entada scandens</i>	matchbox bean;gilla nut;queensland bean
erija	<i>erisma japura</i>	japura
eryva	<i>erythrina variegata</i>	coral tree
escsu	<i>eschweilera subglandulosa</i>	guatecare;watercare
quaem	<i>euadenia eminens</i>	
sanxx=	<i>eucarya species</i>	
eugtr	<i>eugeissona tristis</i>	
eugut	<i>eugeissona utilis</i>	stilt-root palm
eurle	<i>euryale ferox</i>	fox nut;gorgon nut
faggr	<i>fagus grandifolia</i>	american beech
fagxx	<i>fagus species</i>	beeches
fagsy	<i>fagus sylvatica</i>	european beech
finca	<i>finschia carrii</i>	
finch	<i>finschia chloroxantha</i>	galip
finfe	<i>finschia ferruginiflora</i>	
finru	<i>finschia rufa</i>	
finxx	<i>finschia species</i>	
sanxx=	<i>fusanus species</i>	
ganmo	<i>ganua motleyana</i>	
garba	<i>garcinia barrettiana</i>	
garco	<i>garcinia conraucana</i>	
garcw	<i>garcinia cowa</i>	
garin	<i>garcinia indica</i>	kokam butter tree

<i>Code</i>	<i>Botanical Name</i>	<i>Common Names</i>
garko	<i>garcinia kola</i>	bitter kola;false kola
garma	<i>garcinia mangostana</i>	mangosteen
garpl	<i>garcinia planchoni</i>	
gascr	<i>gastrococos crispa</i>	corojo
geosu	<i>geoffraea suberba</i>	almandora
gevav	<i>gevuina avellana</i>	chile hazel;avellano
ginbi	<i>ginkgo biloba</i>	maidenhair tree;ginkgo;white nut
gluel	<i>gluta elegans</i>	[rengas]
glure	<i>gluta renghas</i>	[rengas]
gluve	<i>gluta velutina</i>	[rengas]
glyma	<i>glycine max</i>	soy bean;soja bean
gneaf	<i>gnetum africanum</i>	
gnebr	<i>gnetum brunonianum</i>	
gnebu	<i>gnetum buchholzianum</i>	
gneed	<i>gnetum edule</i>	
gnegn	<i>gnetum gnemon</i>	gnemon tree
gnela	<i>gnetum latifolium</i>	
gneed=	<i>gnetum scandens</i>	
gnexx	<i>gnetum species</i>	
gnete	<i>gnetum tenuifolium</i>	
gomni	<i>gomortega nitida</i>	keule
gomja	<i>gomphia jabotapita</i>	button tree
gompa	<i>gomphia parviflora</i>	
grean	<i>grevillea annulifera</i>	
greel	<i>grevillea elaeocarpifolia</i>	
gevav=	<i>guevina avellana</i>	
guico	<i>guibourtia coleosperma</i>	
bacga=	<i>guilielma gaspaes</i>	
guiit	<i>guilielma utilis</i>	palm chestnut;peribaye
guiab	<i>guizotia abyssinica</i>	niger seed
gymwo	<i>gymnocarpus woodii</i>	malanangka
gynpe	<i>gynandropsis pentaphylla</i>	
hamja	<i>hamamelis japonica</i>	
hamvi	<i>hamamelis virginiana</i>	witch hazel
heipa	<i>heisteria parviflora</i>	
helan	<i>helianthus annuus</i>	sunflower seeds
helco	<i>helicia cochinchinensis</i>	
heldi	<i>helicia diversifolia</i>	helicia nut
heler	<i>helicia erratica</i>	
herli	<i>heritiera littoralis</i>	
hermi	<i>heritiera minor</i>	
hibsa	<i>hibiscus sabdariffa</i>	red sorrel;roselle
hicpi	<i>hickbeachia pinnatifolia</i>	rose nut;monkey nut

## Participation of Your Organization in ACOTANC

If your organization has interest in the use, conservation, and ecology of perennial plant species, for production of fruits, nuts, spices, animal fodder, beverages, pharmaceuticals, industrial and construction materials, and other bioproducts, you will find it to your advantage to subscribe to ACOTANC. Apply to become a Participant in ACOTANC now.

Details of participation benefits, classes of participation, and the Acotanc Zone will be supplied on request.

*Please contact:*

**Acotanc Permanent  
Secretariat, PO Box 27, Subiaco,  
WA 6008, Australia**

Phone: (09)-385 3400

Fax: (09)-385 1612

**Subscription rates:**

**Full Participant \$40.00**

**Local Affiliate \$20.00**

**Out-Zone Associates \$10.00**

Tree Tomato	1,4	5	yes	yes	yes	yes	no	no
Wampee	1,2	5	4	5	yes	yes	no	no
White Sapote	1,2	no	no	no	4	no	no	no

## NOTES:

- (1) Used in plantbreeding programs
- (2) Nursery rootstock production
- (3) Requires stratification period for germination
- (4) Common commercial method.
- (5) Very difficult requiring special procedures; variable success
- (6) Difficult procedure used to increase valuable selections

## About the ATCROS DIRECTORY

The 12 Tables which follow make up the ATCROS DIRECTORY. Each has columns for Area, Name, Address, Phone, Fax, Contact, and Description. Each Table is arranged alphabetically by one of these headings, usually either Area or Name. Names in **Bold Type** relate to organizations or individuals which have membership or affiliation with a Full Participant in ACOTANC Inc.

We have tried to make the information as accurate as possible, but there may still be errors and omissions, and room for improvement. Please let us know of all such deficiencies — contact the ATCROS Editor at Cornucopia Press, Tree Crops Centre, PO Box 27 Subiaco WA 6008, Phone 09-3853400, or Fax 09-3851612.

### *From the Editorial of the first edition of ATCROS....*

It is my belief that the Australasian Region occupies a uniquely favourable position in the world scene, one with unmatched potential for the production of tree crops in a rational land-use approach.

The two major factors are, firstly, that the nations making up Australasia are mostly prominent developed countries, able to call upon all the resources of technology, expertise, and scientific research to pursue a goal. Secondly, they occupy a vast and varied geographical location stretching from the

equator to the pole, a location including extensive tropical areas and containing within it almost any desired climatic type. No other world region has this basic combination.

Add to this the strong regional appreciation of the need for rational land use and environmental sensitivity, inevitably including the urge to increase tree plantings and restore degraded soils in a sustainable-agriculture approach, and the opportunities to exploit trees as sources of food and other necessities of life in an Earth-user-friendly way are very great.
